Middx
TW7 6EU**

Important Notice.

ROHS Directive.

We are aware of the RoHS Directive and can assure customers that all supplies into the electronics sector are RoHS compliant. Our products do not contain more than permissible levels of the restricted materials (Lead, mercury, hexavalent chromium, PBBs or PBDEs).

WEEE Directive.

The WEEE Directive places a responsibility on producers of final whole products to recover and recycle products when it becomes waste.

As such this Directive does not impact us as we are a supplier of parts not final product.

REACH

The REACH Directive requires the registration, evaluation and authorization of chemicals. We only manufacture and sell shaped products therefore these regulations do not apply to us.

Any questions regarding the above please contact us.

Mark Ormiston
