## **Important Notice.**

### **ROHS Directive.**

We are aware of the RoHS Directive and can assure customers that all supplies into the electronics sector are RoHS compliant. Our products do not contain more than permissible levels of the restricted materials (Lead, mercury, hexavalent chromium, PBBs or PBDEs).

### **WEEE Directive.**

The WEEE Directive places a responsibility on producers of final whole products to recover and recycle products when it becomes waste. As such this Directive does not impact us as we are a supplier of parts not final product.

### **REACH**

The REACH Directive requires the registration, evaluation and authorization of chemicals. We only manufacture and sell shaped products therefore these regulations do not apply to us.

Any questions regarding the above please contact us.

## Conflict Minerals Statement.

On July 21, 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act was signed into law. The Dodd-Frank Act and related U.S. Securities and Exchange Commission rules require certain companies to disclose the extent to which the products they manufacture or contract to manufacture contain so called conflict minerals sourced from mines in the Democratic Republic of the Congo (DRC) or adjoining countries. Conflict minerals include tantalum, tin, tungsten and gold, which are used in many products and electronic components. Ormiston Wire Ltd promotes the traceability of these minerals and the transparency of the supply chain.

We are committed to working with our customers to supply products that meet their specifications.

More information on the use of conflict minerals is available at [www.gov.uk/conflict-minerals](http://www.gov.uk/conflict-minerals)

We will not purchase products that contain conflict minerals that directly or indirectly finance or benefit armed groups in the DRC or adjoining countries.

We expect our suppliers to only source minerals from responsible sources.

We fully understand the importance of this issue to our customers and is committed to supply chain initiatives and overall corporate social responsibility and sustainability efforts that work towards a conflict free supply chain.

We are encouraging all of our suppliers to likewise support these efforts and make information on the origin of their product components easily accessible on their websites.
